

**2017 INTERNATIONAL CONFERENCE
ON MATHEMATICS AND ITS
APPLICATIONS
Government College University, Lahore
(2017-ICMA-GCUL)**

November 13-15, 2017

Organized by:

Department of Mathematics, G.C University, Lahore.

INTRODUCTION

The Department of Mathematics, GC University Lahore is the most elderly place of learning and imparting knowledge of Mathematics at the graduate and Post-graduate level in Pakistan. The Postgraduate Program at the Department was launched in 1908. In addition, it was the first center to start teaching Mathematics in this part of the Subcontinent until 1920 when the University of the Punjab established its Department of Mathematics. After attaining the status of autonomous situated in 1997, that of a University in 2002, curriculum were upgraded and rationalized in according to International standards. In 2003, Abdul Salam School of Mathematical Sciences (ASSMS) was established for the advancement of Mathematical Sciences with enormous efforts of Mathematics Department. Advancement in Mathematical Sciences is not over there but still on its ride. Department of Mathematics GCU is organizing on “2017 International Mathematics and its Applications” from November 13-15, 2017.

AIMS AND OBJECTIVES

The Conference aims to provide a platform for researchers, scientists, academicians and industrial professionals from all over the world to present their innovative research in the field of Mathematical Sciences. The conference will also provide opportunities for the participants to exchange new ideas, share knowledge and experiences to establish research relations and to find global partners for future collaborations. The conference will consist of plenary/ invited lectures and oral presentations. The event promises a program of parallel sessions covering the broad range of Mathematical topics. The theme of the conference will cover all the major areas of Mathematical sciences and public numerical issues, such as Fixed Point Theory and its Applications, Fuzzy logics, Topological Vector Spaces and Nonlinear Operator Theory, Best Approximations, Soft Set Theory, Convex Optimization Theory. Participants from research funding agencies, private foundations and donor organizations are also welcomed, as they will play a key role in determining the next steps for the development and implementation of innovative research.
