

2nd INTERNATIONAL CONFERENCE ON INNOVATIVE BIOLOGICAL AND PUBLIC HEALTH RESEARCH (IBPHR-2017)

December 6-7, 2017

Organized by:

**Department of Zoology
GC University, Lahore**

INTRODUCTION

The Department of Zoology, GC University, Lahore is the oldest seat of learning and imparting knowledge of Zoology at the graduate and Postgraduate level in Pakistan. The Postgraduate Programme at the Department was launched in 1908. In addition, it was the first centre to start teaching Zoology in this part of the Subcontinent until 1920 when the University of the Punjab established its Department of Zoology. The Zoology Department of the University of the Punjab was also housed in the building of the Department of Zoology at the Government College Lahore and continued functioning here till 1963. In 1963, the Department of Zoology initiated its independent M.Sc. Zoology Programme. After attaining the status of an autonomous institution in 1997, and that of a University in 2002, curricula were upgraded and modernized in accordance with international standards.

Department of Zoology GCU is organizing 2nd International Conference on “Innovative Biological and Public Health Research” from December 6-7, 2017.

AIMS AND OBJECTIVES

The Conference aims to provide a platform for researchers, scientists, academicians and industrial professionals from all over the world to present their innovative research in the field of biological and public health. The conference will also provide opportunities for the participants to exchange new ideas, share knowledge and experiences to establish research relations and to find global partners for future collaborations.

The conference will consist of plenary/ invited lectures, oral presentations and poster sessions. The event promises a programme of parallel sessions covering the broad range of biological topics. The theme of the conference will cover all the major areas of biological sciences and public health issues, such as Medical Entomology, Cell and Molecular Biology, Genetics, Microbiology, Physiology, Parasitology, Applied Ecology, Paleontology, Aquaculture and Fisheries as well as Wildlife and Biodiversity.

Participants from public health research funding agencies, private foundations and donor organizations are also welcome, as they will play a key role in determining the next steps for the development and implementation of innovative research.

The selected papers will be published in the HEC recognized Y-category journal “*Biologia*”, after peer review system.

Last date for the receipt of Abstract and Registration Fee is September 15, 2017.
